

ELITAIRE

DAIKIN APPLIED

A full line of engineered and flexible products for commercial, industrial and institutional HVAC applications

DAIKIN NORTH AMERICA

Variable Refrigerant Volume (VRV)

Climate by Design
INTERNATIONAL

CLIMATE BY DESIGN INTERNATIONAL

Air handling products for food processing, critical processes, and industrial/process dehumidification

EATON

Variable Frequency Drives

INGENIA

Custom air handling units

INNOVENT

Commercial/Industrial energy recovery equipment including: air-to-air energy recover, make-up air dehumidification, natatorium dehumidification, geothermal heat pumps, and packaged multi-zone

JOHNSON AIR ROTATION

Air rotation and custom make-up air

VALENT

High-outdoor air packaged rooftops

NOVELAIRE

Energy conservation and desiccant wheels

CLIMATECRAFT

Custom air handling units

HEAT PIPE TECHNOLOGIES

Advanced energy recovery and dehumidification

Q-PAC

ECM Fan Arrays simplified

BALTIMORE AIRCOIL COMPANY

Cooling tower and fluid coolers

MULTISTACK

Modular, heat recovery, geothermal and custom chillers

RAE

Custom chillers, condensing units, condensers, fluid coolers, and coils

FAFCO

Thermal energy storage

CANARIIS

Factory built packaged pumping systems for domestic water, HVAC and fire pump applications

DATAIRE

Computer Room Air Conditioning (CRAC)

COMPOSITE COOLING

Field-erected cooling towers

ALFA LAVAL

Heat exchangers, centrifugal separators and pumps

PUROFLUX

Fluid filtration and pump packages

UNITED COOLAIR

Indoor packaged and splittable light commercial air conditioners

GRISWOLD WATER SYSTEMS

Chemical-free water treatment

TROX

Chilled beams and underfloor air
